PORTFOLIO WEBSITE

ABOUT ME

Hey there! I consider myself a jack of all trades. As a military veteran spouse, I easily adapt to change and can bring my global perspective to the table.

I am self-taught and have experience in JavaScript, specifically React, but I am open to learning and taking on new skills.

SKILLS

- JavaScript/HTML5/CSS3
- React.js
- Vue.js
- Google Cloud Platform - Cloud Storage, Secret Manager, Triggers, Cloud Functions, Cloud Build
- Jira
- Jest unit testing
- Redux
- TypeScript
- Google Firestore (NoSQL)
- Postgres (SQL)
- Node.js
- Express.js
- Git/GitHub (version control)
- REST APIs
- Material-UI, SASS, Tailwind
- Zustand
- Bootstrap 5
- Next.js

PROJECTS

BOOK GENERATOR

A React project utilizing the NY Times Books API. A user signs in and has access to generated random book information for them to favorite or purchase through a link to Amazon.   **>PREVIEW**

- Created a users store and a books store using Redux to make each state accessible to all components
- Material-UI components for design customization
- Included Formik for managing form state, validation, and submissions
- Wrote CRUD functions to query user and book data in a Firestore database

TO-DO MANAGEMENT

A fullstack application utilizing Postgres and an ExpressJS/NodeJS server to manage a to-do list.

- Created a server to handle http requests
- TypeScript used for type safety **>FRONTEND   >BACKEND**
- Wrote CRUD functions for querying data stored in a Postgres database

PROFESSIONAL DEVELOPMENT

- Learn TypeScript (Codecademy)
- Frontend Developer Career Path (Scrimba)
- Complete JavaScript Course 2020 with Jonas (Udemy)
- Learn React and The React Bootcamp with Bob (Scrimba)
- Master SQL for Data Science with Imtiaz Ahmad (Udemy)
- CS50 Intro to Computer Science (Harvard Online)
- The Vue Bootcamp (Scrimba)

PROFESSIONAL EXPERIENCE

JUNIOR JAVASCRIPT SOFTWARE ENGINEER
NORTHPOINT DEVELOPMENT - 2021 TO PRESENT

- Worked on building out a tracker for bid forms to provide automation, save time, and increase profits
- Wrote a cloud function triggered daily to build a kmz file which was then utilized for data analytics
- Contributed to building out a map tool by utilizing Firestore, Salesforce, Google Cloud Storage, and Algolia
- Kept stakeholders up top date in agile development process

FRONTEND DEVELOPER
ANDREWS MCMEEL UNIVERSAL - 2021 TO 2022

- Assisted in building the new Puzzle Society website using React and Nextjs
- Write tests using Jest, Cypress, and React Testing Library
- Manage state using Zustand
- Styled using scss modules and Bootstrap
